SERIEXOLOGICAL SELF-POSITIONING

Definition

Seriexological self-positioning is the act of a conscin assuming both in terms of theory and practice, intimately and publicly, their own commitment and / or multiexistential representativeness in a particular group, context, country, or social movement of the past.

(Lavôr, L., 2017; verbet homonym).

SERIEXOLOGICAL SELF-POSITIONING

CATEGORIES OF SERIEXOLOGICAL SELF-POSITIONING

CONSCIOUS

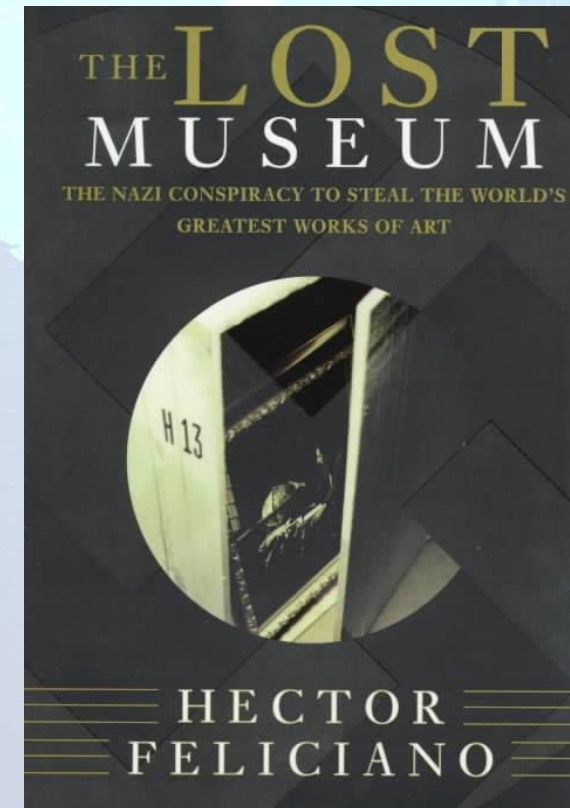

UNCONSCIOUS

SERIEXOLOGICAL SELF-POSITIONING

UNCONSCIOUS

Unconscious. When the person does not appear to have or does not express lucidity about their past lives, but still, guided by circumstances and energetic repercussions, he or she chooses to exercise an evolutionary positioning, promoting reflection and groupkarmic recovery for himself and for other involved consciousnesses.

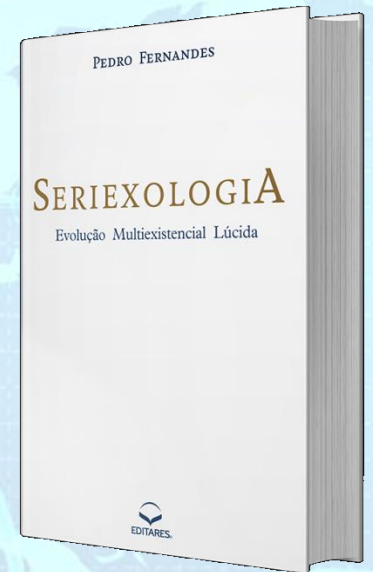

SERIEXOLOGICAL SELF-POSITIONING

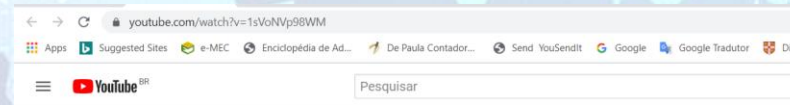

Conscious. When the conscin has lucidity of a certain fact from the past and is compelled to act in the present life, in order to improve the tracks left, qualifying the balance of the PER – personal evolutionary record.

Example. “If the hypothesis of having been Émile Littré in my last life is correct, the content of the ideas presented in this book can be taken into account for the revision, reparation and expansion of the concepts defended by that positivist physician of that time...” (Fernandes, 2021 p. 39)

SERIEXOLOGICAL SELF-POSITIONING

Holobiography

There are people today, even at the Tertularium, volunteers in Conscienciocentric Institutions (CI), who could have been depertos one millennium ago, but foolishly preferred to repeat useless lives and experiences. Alone or in groups, in Judaism, in the church, in feudalism, in monarchy, in politics, in literature, or in ancient crafts. In this sense, we can begin the historical research of holobiographies of conscienciology volunteers, that is, of the consecutive personalities closest to us.

(Vieira, W., 2014, p. 795)

Accelerate the evolutionary process,
exercising conscious
seriexological self-positioning.

FOCUS

- Peripheral
- Megafocal

a. **Peripheral.** As the researcher identifies themes or postures that lack personal positioning, it is possible to act proactively, promoting recycling and assistance.

Example.

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

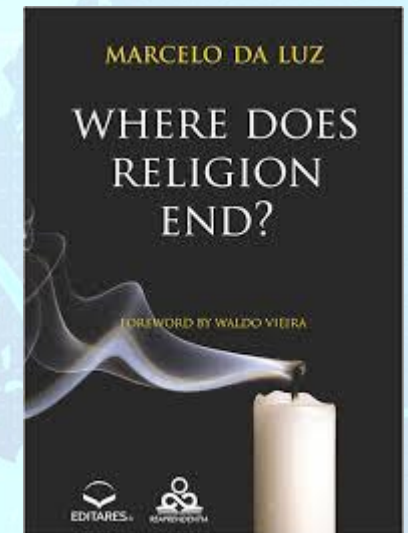

FOCUS

- Peripheral
- Megafochal

b. **Megafochal.** The specific megafochal self-positioning, which goes straight to the point, acting in overcoming the gordian knot of the consciousness, in its megaweaktrait maintained throughout lifetimes, which is the focus of the fundamental clause of the proaxis.

Marcelo titled the book's introduction – *Itinerary of the mind "out" of God*, making a parody with the title of the medieval work written by the Franciscan Boaventura de Bagnoreggio (1221-1274) - *Itinerary of the mind "into" God*, and comments that "the book represents the explanation of the reasons for the author's "deconversion" - the beginning of a new stage of life in which the objective is consciencial re-education - the task of "unlearning" the mistakes and fallacies taught in the past.

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

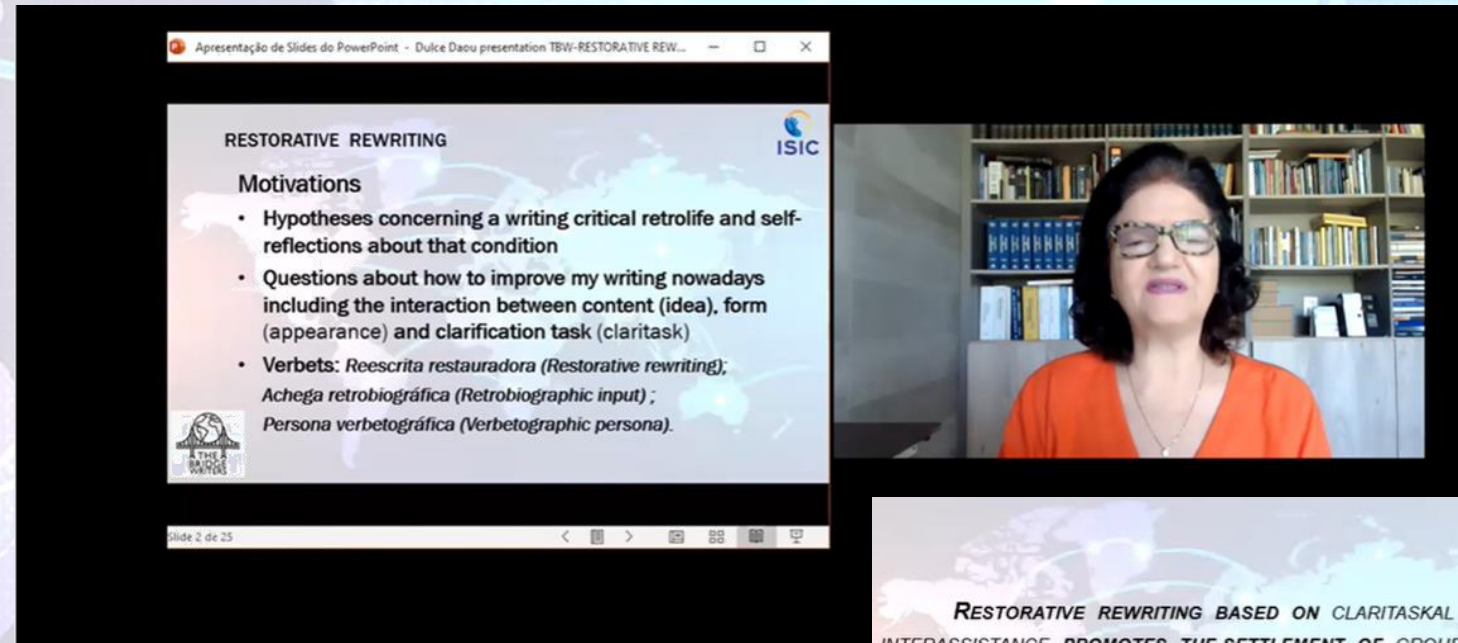

a. **Recompositive.** Lucid self-positioning, with focus on a group retractions and compensations.

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

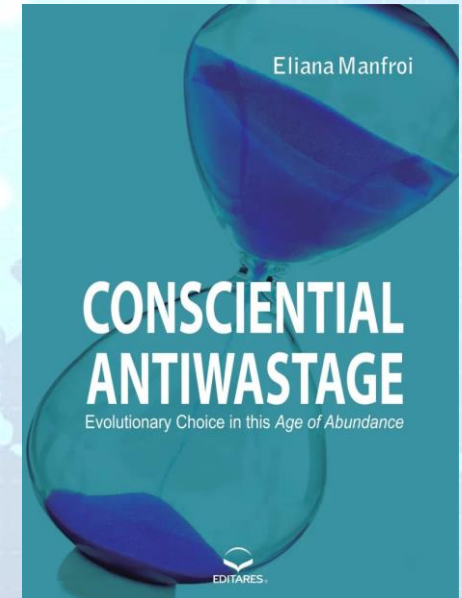

CHARACTERISTIC

- Recompositive
- Reciprocative
- Recyclogenic

b. Reciprocative or Giving Back. The expression of the current recognition of evolutionary contributions received from a certain group or context from the past, even if today you are dissenting from them.

Example. Self-responsible reciprocity: “...is the act or effect of a consciousness answering for proevolutionary contributions, inputs, and gains they received, by means of recognition, gratitude, return of personal patrimony, and interassistance to others.” (Manfroi, p. 65)

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

CHARACTERISTIC

- Recompositive
- Reciproctive
- Recyclogenic

c. **Recyclogenic.** Self-decisions that impact on the personal evolutionary course, overcoming mega-brakes, such as the megaweaktrait, promoting intraconsciential recycling, triggering a clear change in the evolutionary level.

Example. Stanley Tookie Williams III, from being a gang leader to being nominated for the Nobel Peace Prize in the same lifetime.

https://en.wikipedia.org/wiki/Stanley_Williams

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

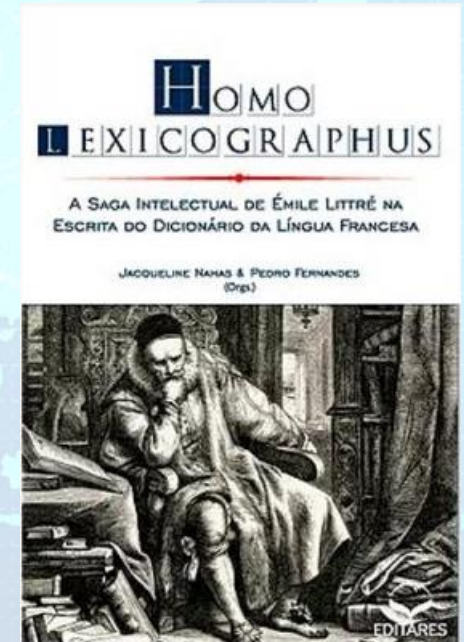

EXPRESSION

- Implicit
- Explicit

a. **Implicit.** A silent self-positioning, but authentically expressed in postures, choices and manifestations.

Example. “... The work [in general] reflects the author. The work denounces the author. The work unfolds the author. In this way, any book is an autobiographical gestation, in a greater or lesser percentage.” (p. 16)

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

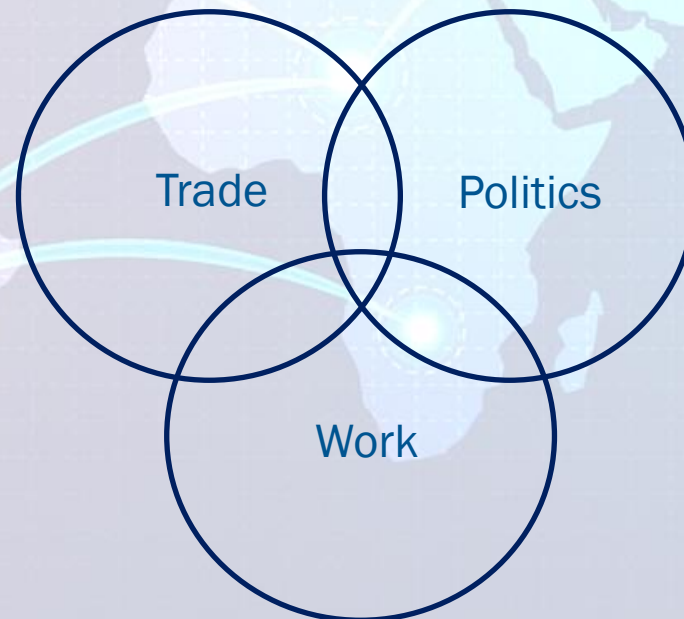

EXPRESSION

- Implicit
- Explicit

b. Explicit. The position expressed in an open, public way, making clear the personal point of view, its motivations and intentions.

Example. At the 1st Mnemonic Gala, André Silva and I represented the couple Charles Francis Adams and Abigail Brooks Adams. He was an American historical editor, writer, politician, and diplomat, served as Lincoln's ambassador in the UK. They were abolitionists.

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

SPHERE

- Egokarmic
- Duokarmic
- Groupkarmic
- Polykarmic

a. **Egokarmic.** Intimate decisions, choices and postures, based on seriexological self-awareness, defining a new evolutionary level.

“Cosmoethical self-ultimatum is the final and irrevocable personal decision of a penta practitioner conscin of permanently abolishing corruptions, conflicts, tricks, subterfuges, apriorisms, fantasy and ectopic egotism still remaining in daily self-manifestation, aiming to achieve permanent theatic self-deintrusion (self-depertology).”

(Fernandes, P., verbet: Cosmoethical Self-ultimatum)

Examples:

1. Application of the Existential Inversion technique – Invexis
2. Application of the Existential Recycling technique – Recexis
3. Assumption of idle strongtraits
4. Development of absentrait
5. Option for self-deintrusion
6. Overcoming weaktraits, specially megaweaktraits

SERIEXOLOGICAL SELF-POSITIONING

TAXOLOGY OF SERIEXOLOGICAL SELF-POSITIONING

SPHERE

- Egokarmic
- Duokarmic
- Groupkarmic
- Polykarmic

b. **Duokarmic.** On the one hand, the intimate willingness to overcome obstacles that prevent the development of a healthy and productive sexual-affective relationship, based on the evolutionary duo technique. On the other hand, the assumption of the group's rearrangements of the evolutionary duo, in view of joint karmic balances left from past lives.

Example. "At 53 years of age, one year before having contact with the ideas of conscientiology, I intimately decided to assume a partner to share interests, values, affection, in short, support and assistance to one another. [...] at this moment, I thought it was selfish not to have someone to share and offer so much good that I had in me." (p. 173)

SPHERE

- Egokarmic
- Duokarmic
- Groupkarmic
- Polykarmic

c1. **Personal Groupkarmic.** Recognition and rescue of consciousnesses that make up the coexistence group throughout many lifetimes. In this case, self-positioning goes through intra and extraphysical exemplarism, bringing the group to a higher level of reflection and recin; by claritask, unlearning what was taught wrong in the past and by updating anachronistic images of long-term evolutionary companions.

SPHERE

- Egokarmic
- Duokarmic
- Groupkarmic
- Polykarmic

c2. **Corporate.** Recognition and recovery with consciousnesses or groups that have been harmed and / or neglected in the company's trajectory.

Example: "In 1838, Jesuits linked to the university sold 272 slaves, including men, women and children to plantations in Louisiana. The amount raised [...] guaranteed the survival of the University, one of the top 20 universities in the USA. In 2016, they announced that they would facilitate the admission of the descendants of the slaves sold in the 19th century."

- Egokarmic
- Duokarmic
- Groupkarmic
- Polykarmic

c3. **National.** Recognition and recovery with consciousnesses or groups that have been harmed and/or neglected in a country's trajectory.

Example. In Germany, there are many monuments and museums to remember the horror of the holocaust. In schools, the students have classes on the holocaust and subsequently their teachers organize visits to memorials and concentration camps. (<https://www.bbc.com/portuguese/internacional-45502884>)

d. Polykarmic. The self-positioning that reverberates far beyond the groupkarma, becoming the lucid minipiece agent of the interassistential maximechanism.

b. **Extraphysical.** The choices and extraphysical manifestations of consciexes that already have lucidity about mistakes and omissions committed in past lives, acting to correct the path of evolution itself, still in the extraphysical dimension.
